Key  
Vocabulary

How can animals be classified?

Animals can be grouped in different ways.

Diet- Animals can be sorted by the types of food they eat. A lion is a carnivore because it eats meat. A rabbit is a herbivore because it eats plants.

Wild or domestic- Animals can be sorted by whether they are wild or domestic.

Appearance- Animals can be sorted by their size, colour, pattern, size....

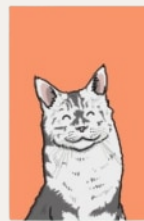

What are the different types of animals?

There are 5 different types of animals, and they can be split into 3 categories depending on what they eat.

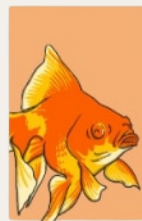

A herbivore (eats vegetables), A omnivore (eats meat and vegetables) and a carnivore (eats meat).

Animals have different features which help them. Animals have different habitats which suit their needs.

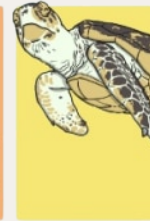

Vocabulary	Definition
Head	The top part of the body which houses the brain and sensory organs
Eyes	Used for sight
Ears	Used for hearing
Mouth	Used for taste and speaking
Nose	Used for smell
Hands	Used for reaching and touching
Herbivore	An animal that eats plants
Carnivore	An animal that eats meat
Omnivore	An animal that eats plants and meat

Knowledge

Can I locate the continents and oceans?

There are 7 continents on the Earth and 5 Oceans. In each of these there are different environments and habitats for different animals.

Animals adapt to survive in the habitat in which they live.

Can I make an animal enclosure?

Design- Think carefully about an animals shape, size and needs.

Construct- Create the enclosure using recycled materials.

Evaluate- How does it meet the animals needs.

How can I make different effects?  
Different pencils can create different effects.

Hard pencils make lighter lines and can be useful for making outlines and sketching.

Soft pencils make harder lines and are useful for shading.

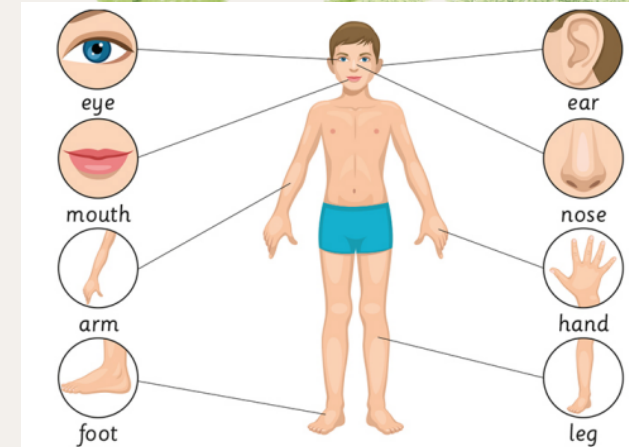

What are the features of humans?  
Humans have lots of different body parts that all have a use.

Ears- To hear with

Eyes- To see with

Mouth- To taste and speak with  
Hands/legs- For reaching/walking and touching

Head- Protects the brain and sensory organs

Who is Dean Russo?  
He is a famous artist who uses vibrant colours to paint animals.
